

# New Hemp Technology Is 450% Better For Discomfort Relief Than Regular Hemp Oil

Next generation hemp technology soothes joint discomfort, aches and sore muscles 5Xs better than hemp oil.

Americans are rejoicing about a brandnew technology that gets the goods on the health benefits of hemp.

A next generation hemp technology is now available across the nation and can be purchased without a prescription.

And the best part, it comes with a new delivery system that's 450% more absorbable than oil.

So you can say good-bye to pills, oils and creams.

Canna LS contains pure "full spectrum hemp," which works to relieve joint discomfort, restore sharp memory, and support a healthy normal inflammatory response, to name a few. And since it has no THC, it heals without the "high."

Exciting new scientific research shows that hemp contains special molecules called cannabinoids which bind to receptor sites in the brain and body. When taken orally, hemp activates these receptors

### Why This New Technology Is Better Than Hemp

Unfortunately, most hemp found on the market can't deliver a fraction of these results. "The problem is, most hemp formulas come in oil form," according to Chief Technologist Mi Hwa Kim of The Green Gardener. "Oil doesn't breach the cell membrane, which is where the real healing happens. Our body is 80% water, our cells 90%. And you know what they say about oil and water — they don't mix."

This is why Canna LS contains a unique "water soluble" system. The technology is shown to improve absorption in the cells by 450%, quickly boosting the body's cannabinoid levels.

"The other problem is that most of these formulas only contain a single compound extract," says Ms. Kim. "Hemp's full spectrum of cannabinoids are shown to work synergistically. In short, they work better together. It's called the "entourage effect." Most miss out on the full effects because they are missing some of the best rejuvenating com-pounds within the hemp plant. This is why we've made Canna

LS with "full spectrum" hemp." "Finally, most hemp formulas are made on foreign farms with pesticides, or grown using non-organic seeds and processes. We've grown the hemp in Canna LS at a 100% organic American farm, under strict agricultural guidelines. It's grown without pesticides or GMOs. And it's grown to contain no THC."

### **How It Works**

The key to hemp's health benefits is the Endocannabinoid System, a network of receptors in the cells. The system is there to maintain homeostasis (balance). In response to toxins in our body, it releases cannabinoids to set things back to their natural state.

"It's really an amazing God-given system that's been completely overlooked," says Ms. Kim. "Our bodies are practically designed to work with the compounds in hemp, which is why we needed a technology like Canna LS that unleashes its full potential."

Over time, with aging, the endocannabinoid system eventually burns out. Fewer cannabinoids are released, so the body's levels deplete. The result is, all sorts of symptoms of aging like age-related memory loss, blurry vision, joint dis-comfort, and much more.

"This is why there's almost nothing hemp can't do and no health concern it can't address," says Mi Hwa. "The trouble is, most hemp formulas are just not absorbable enough for the cell, so they fail to activate the endocannabinoid system. This is why they don't deliver anything close to the full range of potential results."

Fortunately, Canna LS is clinically shown to enter the cell membrane 450% more powerfully. This is how it boosts cannabinoid levels fast, helping to relieve joint discomfort... restore foggy memory... and support healthy blood sugar. And what most people really love is that the "pearl" gel is easier to take than taking a pill or oil.

### **Not Yet Sold In Stores**

Full-spectrum hemp, like Canna LS, is available nationwide. However, several major pharmaceutical companies are currently testing hemp in clinical settings, which means it may require a

prescription in the future. It's advised to get Canna LS while you can.

### Taking All The Risk Off Consumers

A large percentage of men and women using Canna LS experience truly amazing results. That's why it's now being sold with a guarantee that goes way beyond the industry standard. "We can only make this guarantee because we are 100% certain our customers will be satisfied," says Ms. Kim. We want to take full risk off consumers. So in addition to offering substantial dis-counts for first-time customers, we also make them a huge promise that ensures they don't have to risk a cent."

Here's how it works: Take Canna LS exactly as directed, and you must be thrilled with the results! Otherwise, sim-ply return the bottles and any unused portion with-in 90 days of purchase.

### Where To Find Canna LS

# 5 QUESTIONS with ...

As Sons of Anarchy spinoff Mayans M.C. keeps on cruising through Season 4 Tuesdays on FX, Angel Reyes (Clayton Cardenas) finds his heart pulled in every direction. He's confronted with a lifealtering choice: Does he follow his brother, EZ (JD Pardo), and the Mayans down a path that could lead to ruin, or does he leave the club to make his own life as a devoted husband and father?

"I think as he watches his brother get fully immersed into the club and sees how the consequences of his actions are tearing his life apart, I think Angel will start to say, 'OK, this is not for me anymore. If my brother's going to make the decision to stay in this life, I have to make a decision for myself to get out."

Angel's also trying to build a new life with Nails (Justina Adorno) and the child they're having together.

"He's moving into this season with the belief that him and Nails are going to have this baby and hopefully this new life that he never had," Cardenas says. "I think it's an opportunity to find life outside of the club."

Cardenas became the latest member of our "5 Questions" club:

# What's been your strangest or most interesting fan encounter?

My strangest interaction with a fan happened in Rhode Island. She asked me to autograph her body and said she wanted to go get it as a tattoo. I thought she was joking, but she showed up 45 minutes later to show the tattoo off to me. I will never doubt any fan again.

# 2. Can you tell us about a time you were starstruck?

The first time I was starstruck, I was 13 and had just seen Shaquille O'Neal for the first time in person. I nervously walked up to him with a notepad hoping to get an autograph. He surprisingly signed every piece of paper in that notepad and told me to hand them out to my friends.

# 3. What's a movie that you can watch over and over again?

The one movie I can watch over and over is *Forrest Gump*. For so many different reasons, I think we would need an extra article.

# 4. What's your favorite sports team?

I can't pick one. I'm an L.A. kid, so Dodgers, Lakers and Raiders.

# 5. What's a job you had before showbiz?

The one job I had before acting was being a waiter. Be sure to tip well!

### Candy on HULU

Based on a true story, this crime drama miniseries stars Jessica Biel as Candy Montgomery, a 1980s Texas housewife who seemingly had it all - husband, two kids, nice house in the suburbs - but the pressure of conformity drove her to murder her friend from church with an axe. Timothy Simons, Melanie Lynskey, Pablo Schreiber, and Raúl Esparza also star.

### **Bob Hearts Abishola**

8:30 pm on CBS

When Abishola (Folake Olowofoyeku) brings Dele (Travis Wolfe) to the hospital with her, she soon is forced to realize that her dreams of him becoming a doctor are, at best, a long-shot maternal fantasy in the new episode *Wrangling a Greased Pig.* Meanwhile, Kemi (Gina Yashere) bonds with Ogechi (Kimberly Scott) after the latter slips in the bathtub. Billy Gardell also stars.

### **BBQ Brawl**

9 pm on FOOD

### Season Premiere

Undefeated champion Bobby Flay returns for Season 3 of this cooking competition, joined by Anne Burrell and Jet Tila, both of whom hope to lead a team that includes the next Master of 'Cue to victory. In the season premiere, 'Cue the Introductions, nine barbecue masters introduce themselves and their brand of barbecue.

### **Breeders**

10 pm on FX

### Season Premiere

Season 3 picks up the action just days after the end of Season 2, which climaxed with son Luke (Alex Eastwood) angrily punching Paul (Martin Freeman), his father. Since Luke now refuses to live under the same roof as his dad, Paul is temporarily staying in the home of his mother-in-law, Leah (Stella Gonet). Another episode immediately follows.

PBS' new series Lucy Worsley Investigates will premiere on Sunday, May 15 at 8 PM ET (check your local listings). Popular historian Lucy Worsley turns detective this time, using new evidence and modern techniques to solve some of British history's most enduring mysteries. In the premiere episode, Lucy investigates the supposed murder of two young princes in the Tower of London. Was it their power-hungry Uncle Richard who had Edward and Richard killed? Their mysterious disappearance in 1483 and a surprising lack of historical evidence have led to centuries of speculation. If the boys weren't murdered at the behest of Richard III, who else might have benefitted from their death? Or were they not killed at all, but simply banished? Lucy delves into the period of their demise the cutthroat era of the War of the Roses – and uncovers a fascinating chain of events leading up to the princes' disappearance. After conferring with an array of historians who have spent decades trying to crack the case, Lucy ultimately makes up her mind about Richard's guilt and reveals new insight about the life of a royal child in Medieval England.

TLC will premiere season four of *Welcome to Plathville* on Tuesday, May 17 at 10 PM ET/PT. Kim and Barry raised their nine kids on an idyllic and secluded farm in southern Georgia, separated from social media and modern culture but life looks a whole lot different for the family now. Ethan, Olivia, and Moriah are in Tampa, far from the family drama but making it on their own in a new city that is not all fun and games. Micah is stretching his wings in Los Angeles and finding new friends and room to grow. Kim and Barry have five of their nine kids still living in their house, but life is no longer as conservative as it once was. Kim is questioning their lifestyle and her choices overall and some unexpected alliances and friendships occur as a result.

Freeform will premiere its new original four-part docuseries *The Deep End* on Wednesday, May 18 at 10 PM ET/PT. Directed by Jon Kasbe, this promises to be an arresting and provocative exploration inside the world of one of today's most controversial spiritual teachers and her dedicated followers. Filmed over three years with unprecedented access, it is an unflinching portrayal of the incredible lengths people will go to in their search for connection.

### **The Prison Breaker**

7 pm on ID

### Series Premiere

This docuseries chronicles the saga of Richard Lee McNair, a criminal mastermind and escape artist who is believed to be the only person ever to have broken out of jail, a state prison and a federal penitentiary. His repertoire of tricks includes crawling through air vents, using lip balm to slip out of handcuffs and even mailing himself to freedom.

### **American Masters**

9 pm on PBS

Aquaman star Jason Momoa, the son of a Native Hawaiian himself, makes a fitting narrator for Waterman – Duke: Ambassador of Aloha, a profile of five-time Olympic medalist Duke Kahanamoku, who shattered records as a swimmer and helped bring surfing to the world. Interviews include Jack Johnson, Kelly Slater and Carissa Moore.

### **Restoring Galveston**

9 pm on MAGN

Season Premiere

Michael and Ashley Cordray return for their fourth season of saving centuries-old homes in Galveston, Texas. In the season premiere, *Alley Cat House*, the Cordrays turn an alley home once filled with cats into a getaway. The property is highlighted with custom features including reclaimed wood walls and an upcycled stock tank bathtub.

### **Big Restaurant Bet**

10 pm on FOOD

Season Finale

The competition reaches its climax as host Geoffrey Za-karian lets each of the two chef finalists do a full restaurant takeover, setting up their eatery with a full staff, as well as real diners – which, needless to say, include Geoffrey himself, in the season finale It's Yours to Lose!

# The Real Housewives of Beverly Hills

8 pm on BRAVO

### Season Premiere

Diana Jenkins, a Bosnian war refugee who married into an impressive banking fortune and is now part of the most elite circles in Beverly Hills, is a new housewife for Season 12, joining returnees including Kyle Richards, Lisa Rinna, Garcelle Beauvais and Crystal Kung Minkoff.

### **Married at First Sight**

8 pm on LIFETIME

### Season Finale

After an eight-week ride on an emotional rollercoaster, the journey is coming to an end for four couples, who must confront the biggest decision of their lives in the season finale, *Got My Mind Made Up*. That title notwithstanding, though, several members of this group are far from certain about whether they want to stay married or divorce.

### **Chicago Fire**

9 pm on NBC

A family friend turns to Herrmann (David Eigenberg) for his advice on opening a bar in the new episode *Halfway to the Moon*. Elsewhere, tensions approach the boiling point between Emma and Violet (Caitlin Carver, Hanako Greensmith), while Kidd (Miranda Rae Mayo) has a hard time keeping her team together. Taylor Kinney, Christian Stolte and Joe Minoso also star.

### **NOVA**

best bets **WEDNESDAY** 

9 pm on PBS

Sir David Attenborough hosts this new two-part special episode on how dinosaurs became extinct. Filmed over the course of three years, the first part, *Dinosaur Apocalypse: The New Evidence*, follows paleontologist Robert DePalma and his team as they explore a fossil dig site in the Badlands of North Dakota.

Bret Maverick, a charming con man and romantic adventurer, was a gambling man with a deeprooted sense of fair play. Maverick had a flair for getting in, and out of, trouble, which made him one of the most colorful characters in

Western legend. This film chronicles Maverick's travels from a saloon poker table to the untamed canyons of the Wild West, and, eventually, to the embrace of the beautiful Annabelle Bransford. Stars Mel Gibson, Jodie Foster, James Garner, Graham Greene, James Coburn and Alfred Molina.

One of the fastest, funniest and most quotable films ever. When adapting Ben Hecht and Charles MacArthur's hit 1928 play *The Front Page* into this film, Howard Hawks had

the inspired idea of turning its star reporter character Hildy Johnson into a woman. The result is an immortal mix of hard-boiled newsroom setting and remarriage comedy, and Rosalind Russell as Hildy is a standout among cinema's powerful women. She is matched in force only by her conniving but charismatic editor and ex-husband, Walter Burns (Cary Grant). Burns dangles the chance for Hildy to scoop her fellow reporters with the story of an impending execution in order to keep her from hopping the train that's supposed to take her to Albany and a new life as a housewife married to bland insurance man Bruce Baldwin (Ralph Bellamy).

# Hamlin looks to tame Darlington once again

If you're looking for someone who might be able to tame "the track too tough to tame," look no further than Denny Hamlin.

Indeed, the 41-year-old driver of the No. 11 Toyota Camry for Joe Gibbs Racing has a pretty enviable record at South Carolina's Darlington Raceway, home of spring and fall NASCAR Cup races.

Over his past five races there dating back to 2020, the Florida native has been stellar, winning twice and finishing fifth twice and 13th once for an average finish of 5.0. And over his career going back to his rookie year of 2006, he has four wins, 11 top-fives, 14 top-10s and an average finish of 7.05. But throw out 19th and 29th place finishes in 2014 and 2019, respectively, and that average drops to just over 5.0. Or roughly a top-five finish in every Cup race he's ever run there. Not too shabby.

He proved to be more than the track's equal most recently in last September's playoff race, the Cook Out Southern 500, when he led the final 69 laps on the 1.366 mile egg-shaped oval and just narrowly held off a hard-charging Kyle Larson to pick up his first win of the season in a messy affair filled with crashes and pit road mistakes.

He'll be part of a field including Larson, Joey Logano, Chase Elliott, Kevin Harvick, Kyle Busch and Martin Truex Jr. in this year's spring Cup race at Darlington, which airs Sunday, May 8, on FS1.

### In Memoriam: "As The World Turns" Star Kathryn Hays Has Died At 87

By Michael Maloney

Actress Kathryn Hays, beloved as Kim Hughes on As the World Turns, has passed away. The actress died on March 25 in Fairfield, Connecticut, at age 87 of undisclosed causes.

A native of Princeton, Illinois, Hays started acting professionally in the 1960s with appearances on *Route 66*, *Hawaiian Eye* and

Surfside 6. Her Broadway credits include The Irregular Verb to Love and Mary, Mary. Hays also made her mark in the Star Trek world playing the character Gem in the memorable 1968 episode "The Empath."

Hays joined *ATWT* in 1972. Her character, Kim Reynolds, was constructed by series creator Irna Phillips. In the 1970s, Hays' Kim was involved in a love triangle with Dan Stewart (John Colenback) and the manipulative Susan Stewart (Marie Masters).

In 1985, Kim finally wed longtime love Bob Hughes (Don Hastings). "Our relationship as Bob and Kim was as close as Kathryn's and my relationship was except [that] we were not married," Hastings said. "We were more like brother and sister, and we were great friends. Our biggest squabble was that she always wanted to rehearse and I wanted to take a nap. This is a huge loss to all who knew her."

It's often been said that marriage is death for a soap opera couple, as it's challenging for some writers to come up with conflict for married duos. However, after Kim and Bob tied the knot, head writer Douglas Marland thrust Kim into the forefront of the drama in Oakdale. Before the Kim/Susan feud was reignited (this time over Bob), Kim found herself being stalked by Douglas Cummings (John Wesley Shipp). The story climaxed after Kim declared that she had killed Douglas after erroneously believing that her daughter Frannie (Julianne Moore) had committed the deed.

"A wonderful woman, a caring colleague during the most haunting and difficult roles, emotionally and psychologically, of my early career," Shipp shared on Instagram of Hays. "My memories of this great lady, her fine work and her kindness to me will never dim."

Hays' next storyline had Kim and Bob discovering that daughter Sabrina (also played by Moore) had not died at birth. They were all reunited on location in Italy when soaps were in more prosperous economic times.

"The beautiful and gracious #KathrynHays has passed away," Moore shared on social media. "I worked with Kathryn on #AsTheWorldTurns at the beginning of my career and she treated me with such kindness and generosity, and demonstrated in her every action how to be professional on a set. I am indebted to her and so saddened by her loss. My thoughts are with her family – she spoke to me so often of her daughter. I hope they know what a profound influence Kathryn had on me, and so many others."

Hays is survived by daughter Sherri, son-in-law Bob, grandchildren Kate, Cameron and Garrett, and great-grandson Jack.

# best bets THURSDAY

### United States of Al

8:30 pm on CBS

The family starts getting seriously concerned when the normally responsible Al (Adhir Kalyan) starts blowing off classes and assignments so he can spend more time with Cindy (guest star Jayma Mays) in the new episode Desire/Khwast. Meanwhile, Riley (Parker Young) is pretty sure he and Vanessa (Kelli Goss) won't be able to keep their relationship a secret much longer.

### **How We Roll**

9:30 pm on CBS

After Helen (Julie White) inexplicably ghosts Archie (Chi McBride), Tom (Pete Holmes) is staggered to discover Archie has been keeping a huge secret in the new episode *The Big Secret*. Sheryl Lee Ralph (*Abbott Elementary*) guest stars, with Tahj Mowry, Amanda Perez, Matt McCarthy and Judy Kain reprising their recurring roles; Katie Lowes also stars.

# Chef Boot Camp

10 pm on FOOD

In this new episode host Cliff Crooks comes to the aid of Kwame, owner and head chef of Chicken Fire. While Kwame clearly knows almost everything about chicken and how to fry it, he lacks the knowledge to push his latest eatery into the winner's circle. Another restaurateur, Vira, seems to be on the right track. Cliff hopes to help her improve communication with her team.

### **Commit or Quit**

10 pm on WE

Series Premiere

In this new relationship docuseries, couples in crisis turn to Judge Lynn Toler to evaluate and deliver a life-altering verdict to them: Should they tie the knot or cut their romantic losses and go their separate ways? Eight couples agree to have their homes installed with surveillance cameras, so Judge Toler can witness their interactions.

# HOROSCOPES BY YASMIN BOLAND

Stephen Colbert, a Taurus (born May 13), of "The Late Show with Stephen Colbert"

ARIES (March 21 - April 19) It's not going too far to say that this week marks the start of a new life for you, should you choose to accept it. It's about you opening up to the idea that the universe loves you. Lady Luck is now on your side, as lucky Jupiter moves into Aries.

**TAURUS** (April 20 - May 20) How do you feel about meditation, yoga and chanting? Do you want to boost your ability to read other people's energies? Hopefully you're into such things because this week brings a rare, new cycle for you where your spiritual side is going to massively grow.

**GEMINI** (May 21 - June 20) The good news is that after having money matters exploding around you endlessly, the universe is giving you a break this week. Instead, turn your mind to your friends, your social life, the people you connect with, heart and mind. As it turns out, your friends are your fortune.

CANCER (June 21 - July 22)
You're entering a cycle now where you're going to be encouraged by the universe to go big. There will be pressure on you to keep smiling, no matter what else is going on. You will find it harder to be moderate but that's OK. Make "expansion" your key motto. Avoid arrogance.

**LEO** (July 23 - Aug. 22) After all the recent pressures, relief is in sight. This week, the mighty planet Jupiter, which opens our minds, is moving into the part of your chart which is about travel, adventure and everything else that broadens the mind. It's not a silver bullet but life should start to make more sense.

VIRGO (Aug. 23 - Sept. 22) Virgos are renowned for being modest, but there's an inside joke between astrologers that you guys are often licentious behind closed doors. And if you have a bit of that inside you, well, watch out because it's about to be unleashed! The volume is being turned up on your intimate life.

LIBRA (Sept. 23 - Oct. 22) Want some good news? The planet of good luck and good times, of learning and travel and adventure, Jupiter, has arrived in your opposite sign. You're being tapped on the shoulder by Lady Luck. Expect to expand your horizons. Also a very good omen for your love life.

**SCORPIO** (Oct. 23 - Nov. 21) As much as life continues to be a roller coaster for you, there is good news. As cheerful Jupiter moves into your daily life zone, you should really start to enjoy your days more and more. This is not to be ignored! Life is made up of little moments.

SAGITTARIUS (Nov. 22 - Dec. 21) Are you ready to shake off the shackles of the past two years? Because this week, your ruling planet Jupiter is changing signs and moving into a fellow fire sign, Aries. This is truly great news for you. Jupiter is now aiding and abetting you in everything you do. Enjoy!

CAPRICORN (Dec. 22 - Jan. 19) You're an ambitious sign but as of this week, you need to balance out your professional goals with your personal ones. As if by magic, your private life is about to take a turn for the better so make sure you allow yourself the time you need to enjoy it.

AQUARIUS (Jan. 20 - Feb. 18) All the tough times you have been through were there to help you to evolve as a person. You have had some obstacles to surmount in the past year or three (maybe more than most) but now, hear this message; focus on the good and you will attract more good.

PISCES (Feb. 19 - March 20) The energies have been supercharged for you lately. How are you doing? Aim to come out of this current cycle with your self-esteem not just intact but better than ever. If you can manage that, you will be making the most of the 2022 energies. Your values really matter now.

# **ASK MATT**

@TVGMMattRoush

Question: So what's the deal with Star Trek: Picard being planned for only three seasons? This would be disappointing enough if the show's seasons were more respectable in length, such as a standard 22-24 episode season. But planning to so quickly end a show that puts out a measly 10 episodes per season? Yes, I'm all for a show ending before it wears out its welcome, but come on, people! —Chad

Matt Roush: Maybe because I'm so overwhelmed with new programming these next few weeks, I can't find anything in Chad's rant to agree with. I understand any fan's desire to want more of a favorite thing, but when a show announces its intention up front of planning its story over a set number of seasons, we should respect that decision - and the days of 22-episode seasons for most series, especially in the streaming and cable space, are pretty much over. Picard in particular has been an extremely serialized and narrowly focused characterdriven story from the start, unlike Discovery or other *Trek* series from the past that were more episodic in their exploration of the cosmos. I look at *Picard* more like a 30-episode (over three seasons) limited series with what appears to be very distinct arcs, and even if I make my "less is more" argument for purely selfish reasons, in this case I feel it's creatively justified.

## The U.S. Mint Just Struck Morgan Silver Dollars for the First Time in 100 Years!

It's been more than 100 years since the last Morgan Silver Dollar was struck for circulation. Morgans were the preferred currency of cowboys, ranchers and outlaws and earned a reputation as the coin that helped build the Wild West. Struck in 90% silver from 1878 to 1904, then again in 1921, these silver dollars came to be known by the name of their designer, George T. Morgan. They are one of the most revered, most-collected, vintage U.S. Silver Dollars ever.

### Celebrating the 100th Anniversary with Legal-Tender Morgans

Honoring the 100th anniversary of the last year they were minted, the U.S. Mint struck five different versions of the Morgan in 2021, paying tribute to each of the mints that struck the coin. The coins here honor the historic New Orleans Mint, a U.S. Mint branch from 1838–1861 and again from 1879–1909. These coins, featuring an "O" privy mark, a small differentiating mark, were struck in Philadelphia since the New Orleans Mint no longer exists. These beautiful coins are different than the originals

because they're struck in 99.9% fine silver instead of 90% silver/10% copper, and they were struck using modern technology, serving to enhance the details of the iconic design.

#### Very Limited. Sold Out at the Mint!

The U.S. Mint limited the production of these gorgeous coins to just 175,000, a ridiculously low number. Not surprisingly, they sold out almost instantly! That means you need to hurry to add these bright, shiny, new legal-tender Morgan Silver Dollars with the New Orleans privy mark, struck in 99.9% PURE Silver, to your collection. # Scientists Stunned After Shocking Discovery Reveals True Cause of Fatigue

New research finds unlikely source for why some seniors have an endless supply of energy

For the millions of American's suffering from fatigue there is finally hope.

A new study reveals our energy levels don't have to decline with age.

Published by the *National Institutes of Health*, this peer-reviewed study caused shockwaves in the scientific community. That's because it runs counter to everything scientists have believed about energy levels and aging for years. But the evidence is undeniable.

Researchers analyzing 142 scientific papers determined the key to gaining more energy with age lies inside our cells — in our mitochondria.

Mitochondria play a critical role in generating metabolic energy. They are responsible for converting the food we eat into energy we can use. A paper published by the Department of Cell and Developmental Biology even called them "the gatekeepers" of cellular life and death. That's how vital they are to the survival of human cells.

However as we age, the number of our mitochondria declines. In addition, the mitochondria become susceptible to DNA damage, decreased function, oxidative stress and even mutations. All of which results in excess fatigue, accelerated aging and poor health.

But thanks to this study, America's No. 1 anti-aging doctor has been able to develop a new, all-natural solution that helps seniors increase the number of their mitochondria, so they can "rewind" the clock on old age.

"By taking this one compound you can quickly restore the mitochondria inside your cells," explains Dr. Al Sears – founder and director of the world-renowned Sears Institute for Anti-Aging Medicine.

"And, once your mitochondria levels are restored, you will have so much energy that you will feel decades younger."

#### Unique Discovery Restores Mitochondria

For more than 20 years, Dr. Sears has been considered America's No.1 anti-aging pioneer. He has authored over 500 scientific papers and has appeared on dozens of media outlets including ABC News, CNN, Lifetime, and many more.

Now, his latest discovery—a unique molecule that restores mitochondria inside cells—is so popular that seniors all across the country are stocking up on this new, all-natural energy-booster.

Users say this advanced formula, sold under the name *Ultra Accel II*, allows them to experience the energy levels they had in their 20s and 30s. Those who've

been lucky enough to get their hands on *Ultra Accel II* report seeing remarkable, almost unbelievable results.

As John H., from Bradenton, Florida reports: "I'm a 70-year-old man and I've been taking *Ultra Accel II* for 2 ½ months. On a recent treadmill test, I was told that I did as well as several patients tested who were in their 20s."

As Karyn E. from Palm Beach, Florida says "I noticed more energy within 24 hours of taking Ultra Accel. I was thrilled to have all that extra strength and endurance. Then after a few months, I ran out... and within a week, all that extra energy disappeared. Now, I'll never be without *Ultra Accel II*."

#### Study Confirms 100% Success Rate

Scientists recently gathered a group of men and women suffering from high levels of fatigue.

Over an eight-week period they gave the subjects a daily dose of *Ultra Accel IT*'s core compound. The results? All of the participants felt a significant improvement in energy levels. And the study reported a 100% success rate in boosting the energy levels of those suffering from fatigue.

That's because PQQ (CoQ10's more powerful cousin) — the core ingredient in Ultra Accel II — is the only natural molecule that supports healthy numbers of mitochondria — the power generators inside your cells.

In one study, mice fed PQQ increased the number of mitochondria in their cells by more than 55%, in only eight weeks.

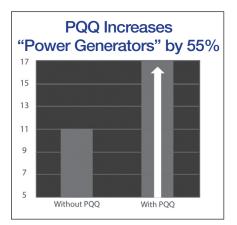

In addition to feeling more energized, users often report feeling mentally younger, with fewer "senior moments" and brain fog. That's because the key compound has been shown to stimulate the production of NGF, which helps trigger the growth of new brain cells.

"I've been taking *Ultra Accel II* continuously for over 12 months and I've found my energy levels to be as high or higher with less exercise. People can't believe I turn 50 this year," reports Wayne L.

And Jerry M. says he "noticed a difference within a few days... my endurance doubled. I love it. There really is something about Ultra Accel II that I can FEEL. It's not just in your body either. You can feel it mentally, too. This is something I'll be taking for a long time."

#### **Demand For Ultra Accel II Soars**

"For too long, millions of Americans have suffered the life-ruining effects of fatigue and lethargy," says Dr. Sears when asked about the remarkable success of Ul-

tra Accel II.
